Concepts: Data Cleaning, Data Validation, Data Quality Assurance, A/B Testing, Data Visualization, SDLC, Agile

PROFESSIONAL EXPERIENCE

Data Analyst Intern

Aug – Dec 2023

Stadium Live Studios (Startup) | Toronto, ON

- Took ownership of the user journey end-to-end in a fast-paced startup environment - managing ad hoc requests from 5+ cross-functional teams simultaneously while meeting competing deadlines.
- Identified a gap in the user onboarding experience and led a data-driven investigation to resolve it, increasing Day 3 user retention by ~12%
- Translated complex product and behavioural data into simple, accessible insights for senior leadership, directly shaping product strategy

Server

Dec 2019 - Dec 2022

Cineplex | Toronto, ON

- Served as a front-line advocate for the guest experience - delivering consistent, high-quality service to 100+ customers per hour in a high-volume environment, achieving 95% positive guest satisfaction across 3 years.
- Took ownership of real-time service issues, applying structured troubleshooting to deliver creative solutions on the spot and reduce escalations by ~20% during peak periods.
- Sustained exceptional written and verbal communication across 8-hour shifts in a fast-paced environment, ensuring every client interaction was handled with care and professionalism.

Secondary School Mentor & Tutor – STEM

Jan 2016 - Present

Various Clients | Toronto, ON

- Explained complex academic concepts in a simple, accessible way to 11+ students - adapting communication style to each learner's background and pace to help clients hit their goals.
- Developed structured follow-up plans to monitor progress, close knowledge gaps, and maintain consistent accountability - mirroring the kind of client journey ownership central to a client experience role.
- Maintained ongoing communication with students and parents across all active engagements - delivering clear, jargon-free updates and proactively flagging issues before they escalated
